

**WE**

# **MAKE**

## **WHAT THE WORLD NEEDS**

From the shoes on our feet, to the baby seats in our cars. From our camping equipment and raincoats to constructing our houses and keeping our hospitals safe, Industry is there providing the products that make our modern way of life possible.

### **Healthcare and Medications**

Industry makes the products that helped get our world through the COVID-19 pandemic, from masks, to gowns, to syringes, blood bags and sanitizer, industry didn't stop production. Industry's manufacturing in Louisiana also make common medicines like ibuprofen and acetaminophen, which go into the popular brands of Tylenol© and Advil©.

### **Construction and Homecare**

Louisiana's industries supply construction and homecare needs in so many ways. From growing trees and making glue, to pigments that go into paint and concrete, the people of Louisiana industry are working hard. Even lawncare solutions, fertilizers, and keeping pests at bay, we make it all!

### **Transportation**

Everyone knows that gasoline powers our vehicles and Louisiana's industry makes plenty of gasoline, however, industry also makes the power that is needed to fuel electric vehicles. From the battery packs to the plastics in the vehicles, Louisiana's industries are part of the solution to make lighter weight, more efficient transportation.

### **Food**

Louisianans love to cook and eat, and Louisiana's industries make many foods. In addition to the food, our industries make the packaging materials, the safety products and the technologies necessary to deliver freshness to your table every day.
